According to the advertisement, the "Buckingham Palace" is a "new" and "exclusive" property, and is "the only one of its kind in the world." The advertisement also states that the property is "located in the heart of the city, and is surrounded by the most beautiful gardens and parks in the world." The advertisement concludes by stating that the property is "available for sale at a very low price, and is a great investment opportunity for anyone looking to buy a property in the city."
